Materiale hidroizolatii Waterproofing systems

Sistem: Hidroizolatii
Grupa: Membrane lichide
Produse chimice speciale ptr.constructii
Producator: CASALI Italia
(www.casaligroup.it)

CASALI SpA este unul din liderii mondiali in productia de membrane bituminoase pentru hidroizolatii, una dintre companiile care a scris istoria acestor produse de-a lungul a mai bine de 70 de ani. Incepand din 1936, CASALI si-a probat pe deplin capacitatea de inovatie si calitatea produselor sale. Oriunde este nevoie de o solutie pentru hidroizolatii, CASALI ofera membrane de cea mai inalta calitate.

Disponand de cele mai noi tehnologii de fabricatie CASALI se ridica la nivelul cerintelor tuturor clientilor, indiferent de solutia si aplicatia dorita, fiind usor de aplicat si extrem de durabile in timp. CASALI ofera o gama completa de membrane bituminoase, utilizabile in orice tip de aplicatie (acoperisuri plane, fundatii, rezervoare de apa, piscine, tunele etc).

Astazi, CASALI este prezenta in peste 40 de tari ale lumii si este organizata in doua divizii:

1. Divizia membrane prefabricate din bitum-polimer, membrane speciale (rezistente la radacini, bariere anti-radon, laminate cu folie metalica etc), membrane termo si hidroizolante, membrane izolante acustic
2. Divizia produse sintetice, care produce hidroizolatii lichide, pardoseli industriale si sportive. Infiintata in anii 90, aceasta divizie produce urmatoarele:

GRUPE DE PRODUSE :

1. Primere bituminoase si acrilice
2. Membrane lichide (bituminoase, acrilice, epoxidice si poliuretanic), formulate pentru a asigura hidroizolatia suprafetelor cu forme complexe ca: terase, balcoane etc.
3. Vopsele protectoare pentru membranele bituminoase (acrilice, cu aluminiu)
4. Produse pentru protectia suprafetelor din beton (protectii anti-acide, vopsele non-toxice pentru ind.alimentara)
5. Ancore chimice
6. Vopsele si acoperiri speciale
7. Produse auxiliare: diluanti, substante de curatare si intretinere etc.

Gama de produse hidroizolante lichide si produse chimice Casali cuprinde:

[ACRYBASE](#)

Acrylic primer in water emulsion

[ACRYBASE S](#)

Solvent-based acrylic primer

[ACRYFELT T1](#)

Woven non woven polyester thermally secured on one side

[ACRYMAT 225 GR/MQ](#)

Glass mat reinforcement

[ACRYROOF](#)

Styrene-Acrylic Resin-Based Waterproofing System for Non-Destructive Resurfacing of Terraces and Balconies with any Kind of Surface or Complex Geometry

[ACRYROOF N](#)

Styrol-acrylic resin based liquid waterproofing in water emulsion with internal plasticization for saturating reinforcements

[ACRYRUBBER](#)

Coloured highly elastic styrol-acrylic resin based liquid waterproofing in water emulsion with internal plasticization

ACRYTOP

Abrasion-proof coating for acrylic and/or bituminous membranes

BI FIX

Universal adhesive and waterproofing additive for mortars-concentrated

DERMACEM

Synthetic polymer and cement based two-component liquid waterproofing membrane in water solution

DERMACEM FIBRO

Cement and synthetic polymer based fibre-reinforced two-component waterproofing liquid

DERMACOLOR

Acrylic paint in water emulsion for bituminous waterproofing membranes

DERMACOLOR BIANCO

High reflection white acrylic paint in water emulsion for bituminous membranes

DERMAPRIMER

Solvent-based bituminous primer

DERMARUBBER

Elasto-bituminous liquid waterproofing membrane in water emulsion

DERMARUBBER S

Solvent-based bituminous compound for waterproofing and gluing

DERMARUBBER S/P

Solvent-based elasto-bituminous liquid waterproofing membrane

DIL MS1

Thinner

DIL R1

Thinner

DIL S1

Thinner

EPOBASE S

Two-component solvent based epoxy primer and dust-proofing consolidating agent

FLOOR TOP

Coloured epoxy resin based protective coating resistant to oil, grease and hydrocarbons

HARDER AR

High-penetration polyurethane based dust-proofing

IDROBIT

Cold asphalt

IDROFOOD

Coloured epoxy resin based paint in water emulsion suitable for use with foodstuffs

IDROMASTIK

Bituminous glue in water emulsion for insulating panels

IDROPRIMER

Ecologic primer

POLYROOF

Polyurethane Resin-Based Waterproofing System for Non-Demolitive Resurfacing of Terraces and Balconies, Ideal for any Type of Surface including Complex Geometries

POLYTOP

Solvent-based polyurethane finish for epoxy and polyurethane liquid membranes

POLYZINCO

Zinc based two-component polyurethane corrosion proofing liquid

RAINPROOF

Transparent two-component polyurethane waterproofing membrane for terraces and balconies

REFLEX

Reflectorizing aluminium paint for bituminous waterproofing membranes

REFLEX AR

Highly reflectorizing aluminium paint for bituminous waterproofing membranes

SILVISOL

Solvent-based pearlescing waterrepellent

SINTOMASTIK

Solvent based bituminous glue for insulating panels

RETCO SRL
