RETCO prezinta in premiera, in Romania, o gama foarte performanta de hidroizolatii lichide poliuretaneice, reunite sub brandul RWS. Hidroizolatiile lichide RWS sunt produse in Grecia de unul dintre liderii europeni in productia de poliuretani MARIS POLYMERS. Maris Ploymers SA a fost fondata in 1989, ca o companie orientate catre R&D de produse performante pe baza de poliuretani pentru constructii, constructii navale si aplicatii industriale. In cei 20 de ani de la infiintare, gratie inaltului nivel de calitate atins de catre produsele Maris, abilitatii de a dezvolta noi produse conform cerintelor beneficiarilor si utilizarii celor mai noi tehnologii de fabricatie, MARIS POLYMERS a devenit liderul pietei de profil din Grecia si una dintre cele mai importante companii europene de profil. MARIS POLYMERS isi respecta imaginea prin dezvoltarea continua de noi produse, mentinand cele mai inalte standard de calitate in productie si service-ul oferit clientilor sai.
